

## Acceptable Use Policy (AUP) for **FAMILIES**

### SafeguardED

#### Background

We ask all children, young people and adults involved in the life of Ridgeway Primary School to read and adhere to an Acceptable Use\* Policy (AUP) to outline how we expect them to behave when they are online, and/or using school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

The AUP your child must adhere to can be viewed in the [online safety section](#) of the school's website. Your child's teacher will have discussed the AUP and the expected behaviours with them in class. On their first time logging into the school system following the introduction of their updated AUP, your child will need to click to say they agree to follow the expected behaviours.

We tell your children that **they should not behave any differently when they are out of school or using their own device or on a home network**. What we tell children about behaviour and respect applies to all members of the school community, whether they are at home or school. We seek the support of parents and carers to reinforce this message and help children to behave in a safe way when online:

**“Treat yourself and others with respect at all times; treat people in the same way when you are online or on a device as you would face to face.”**

#### How can I find out more?

You can read Ridgeway Primary School's full Online Safety Policy in the [Online Safety section](#) of the school website for more detail on our approach to online safety and links to other relevant policies (e.g. Safeguarding and Child Protection Policy, Behaviour Policy, etc). If you have any questions about this AUP or our approach to online safety, please speak to Jonathan Smith.

#### What am I agreeing to?

1. I understand that Ridgeway Primary School uses technology as part of the daily life of the school when it is appropriate to support teaching & learning and the smooth running of the school, and to help prepare the children and young people in our care for their future lives.
2. I understand that the school takes every reasonable precaution to keep children safe and to prevent children from accessing inappropriate materials, including through behaviour policies and agreements, physical and technical monitoring, education and support and web filtering.
3. School network protections will be superior to most home filtering. However, please note that accessing the internet always involves an element of risk and the school cannot be held responsible for the nature and content of materials accessed through the internet and mobile technologies. Schools are asked not to overblock or provide an experience which is so locked down as to block educational content or not train children for life in an online world.
4. I understand that internet and device use in school, and use of school-owned devices, networks and cloud platforms out of school is subject to filtering and monitoring. More detail of this can be found in our [online safety policy](#).
5. I understand and will help my child to use any devices at home in the same manner as when in school, including during any remote learning periods.
6. I will support my child to follow the school's policy regarding bringing devices to school
7. I understand that my child might be contacted online on Weduc and only about their learning, wellbeing or behaviour. If they are contacted by someone else or staff ask them to use a different app to chat, they will tell a member of the Headship Team.

### SafeguardED

8. I will promote positive online safety and model safe, responsible and positive behaviours in my own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, children or other families.
9. Families are not able to call children on their mobile phones during the school day; urgent messages can be passed via the school office.
10. The impact of social media use is often felt strongly in schools, which is why we expect certain behaviours from children when using social media. I will support the school's social media policy and not encourage my child to join any platform where they are below the minimum age.
11. I will follow the [online safety policy](#), which outlines when I can capture and/or share images/videos. I will not share images of other people's children on social media and understand that there may be cultural or legal reasons why this would be inappropriate or even dangerous.
12. I understand that for my child to grow up safe online, s/he will need positive input from school and home, so I will talk to my child about online safety and refer to [parentsafe.lgfl.net](http://parentsafe.lgfl.net) for advice and support on safe settings, parental controls, apps and games, talking to them about life online, screentime and relevant topics from bullying to accessing pornography, extremism and gangs, sharing inappropriate content etc...
13. I understand that my child needs a safe and appropriate place to do home learning, whether for home learning or during times of school closure. When on any video calls with school, my child will be fully dressed and not in bed, and the camera angle will point away from beds/bedding/personal information etc. Where it is possible to blur or change the background, I will help my child to do so.
14. If my child has online tuition, I will refer to the Online Tutors – Keeping children Safe poster and undertake necessary checks where I have arranged this privately, ensuring they are registered/safe and reliable, and for any tuition to remain in the room where possible, ensuring my child knows that tutors should not arrange new sessions or online chats directly with them.
15. I understand that whilst home networks are much less secure than school ones, I can apply child safety settings to my home internet and to various devices, operating systems, consoles, apps and games. There are also child-safe search engines e.g. [swiggle.org.uk](http://swiggle.org.uk) and YouTube Kids is an alternative to YouTube with age appropriate content. Find out more at [parentsafe.lgfl.net](http://parentsafe.lgfl.net)
16. I understand that it can be hard to stop using technology sometimes, and I will talk about this to my child, and refer to the principles of the Digital 5 A Day: [childrenscommissioner.gov.uk/our-work/digital/5-a-day/](http://childrenscommissioner.gov.uk/our-work/digital/5-a-day/)
17. I understand and support the commitments made by my child in the Acceptable Use Policy (AUP) which s/he has signed, and which can be seen [here](#), and I understand that s/he will be subject to sanctions if s/he does not follow these rules.
18. I can find out more about online safety at Ridgeway Primary School by reading the full Online Safety Policy and can talk to their class teacher and/or a member of the Headship Team if I have any concerns about my child/ren's use of technology, or about that of others in the community, or if I have questions about online safety or technology use in school.

~~~~~

**We do not require families to sign and return a copy of this AUP. As members of our school community, families are expected to follow and adhere to all school policies, including this AUP, at all times.**

Please note that families may also be interested in the school's approach to the online safety, which are all covered as sections within the overall school [Online Safety Policy](#).
